A8700

A Secure and Smart POS Solution for your Business

Enhanced Customer Engagement

Improved client interactions and efficient two-way communications are made possible by two user-friendly touch screens.

Intelligent and Powerful

High-Performance Qualcomm processor with built-in connectivity that runs Android 11 to maximize your business potential.

Improve Payment Experience

Combines a high-speed thermal printer with an automatic receipt cutter and a quick release button, delivering a smooth and convenient payment exprience.

Broaden your Business

You can access more possibilities for your business by connecting to any third-party peripheral.
